

Hey VRC Members!

A few of you have asked me some questions about the VRC Spotify Playlists, so I thought I'd send out a quick FAQ in case anyone else was wondering the same things!

Q: What is Spotify?

Spotify is an online music-streaming service (think: Netflix, but for music). You can access it online on your desktop computer (<https://open.spotify.com/>), or download the Spotify app on your smartphone in the [App Store](#) or [Google Play](#).

Q: Do I need to sign up for Spotify to use it? Does it cost money?

You will need to create an account to listen to the music, but listening is free (there will just be the occasional advertisement). If you want to listen "ad-free," you can pay a monthly subscription fee, but you don't have to.

Q: Can I download the songs from Spotify onto my phone or computer?

No. Songs can only be listened to when you are logged in to the Spotify app, or on the Spotify webpage on your computer.

Q: Are the VRC playlists an indication of the songs we'll be singing in Season 8?

No! These playlists are just for fun, and a reflection of songs that our members love.

Q: How do I add a song to the playlists?

Click the red button below, and add your favourite songs to the spreadsheet! Matt will then add the songs to our Spotify playlists.

Here are the direct links to access each playlist:
